Professional Summary

An accomplished IT Project Manager with a strong foundation in technical infrastructure, software development, and IT governance; delivering complex, compliance-driven projects across a public-sector organization. Experienced in portfolio and programme management using Acuity PPM, Microsoft Project Professional, and the Microsoft 365 ecosystem, with a disciplined approach grounded in ITIL, COBIT, and ISO 38500:2024 principles. Committed to driving operational efficiency, stakeholder alignment, and continuous improvement through structured governance frameworks and data-informed decision-making.

Skills

Project & Portfolio Management	Acuity PPM, Microsoft Project Professional, WBS, RAID Logs, Project Charters, Stakeholder Registers, Scope & Schedule Management, Executive Reporting
Governance & Frameworks	ITIL, COBIT, ISO 38500:2024, Organizational Change Management, Requirements Gathering & Management, IT Management & Governance Framework Design
Technical	Microsoft 365 (Teams, SharePoint, Power Automate, OneNote), Active Directory, Group Policy, Networking, Hardware, Security, Troubleshooting
Behavioural	Problem Solving, Critical Thinking, Stakeholder Communication, Cross-functional Team Coordination, Adaptability, Vendor Management
Programming Languages	.NET (C#), Python, Git, Java, HTML, CSS, Javascript, MATLAB, SQL, PHP

Technical Experience

IT Project Manager <i>Niagara Catholic District School Board</i>	Nov. 2024 — Present <i>Welland, ON</i>
- Lead the delivery of a multi-project IT portfolio, managing concurrent initiatives including a Ministry-mandated Police Record Check compliance system, Organizational Position Control integration, Telecom Platform Replacement, and a facilities security modernization project (CCTV/camera infrastructure). - Develop and maintain an IT Management & Governance Framework grounded in ITIL v3, COBIT, and ISO 38500:2024 principles, encompassing portfolio management, programme management, project management, requirements gathering, and organizational change management. - Utilize Acuity PPM, Microsoft Project Professional, and the Microsoft 365 suite (Teams, SharePoint, Power Automate, OneNote) to manage project schedules, RAID logs, WBS, and stakeholder communications; built automated documentation workflows to generate meeting minutes from Teams transcripts via Power Automate. - Coordinate cross-functional delivery across IT, HR, Infrastructure, Business Services, and Purchasing, as well as external vendors procured through Supply Ontario VOR, ensuring alignment on scope, timelines, and compliance requirements. - Produce and maintain formal project artefacts including project charters, stakeholder registers, risk registers, decision logs, and executive status reports for senior leadership.	
Service Desk Analyst <i>Piller's Fine Foods</i>	Jan. 2024 — Nov. 2024 <i>Waterloo, ON</i>
- Managed and resolved incoming user IT issues across network, ERP, and Office 365 environments, consistently delivering tier-2 technical support and reducing resolution escalation times. - Optimized enterprise network efficiency by configuring isolated VLANs in UniFi and Ruckus, implementing zero-trust configurations via Sophos Firewall and Endpoint Protection to safeguard company data. - Provisioned and deployed over 50+ network endpoints (desktops, laptops, Access Points) adhering to stringent organizational compliance, hardware lifecycle, and security guidelines. - Administered secure identity and access Management operations via Active Directory, Group Policy, and Microsoft 365 Exchange environments for a large user base during onboarding and offboarding.	

IT Project Manager (Contract)
Zombiecrafter

Oct. 2023 — Jan. 2024

Montreal, QC

- Directed full-lifecycle software development of a custom multiplayer game mode, spearheading architecture, coding, and delivery for an audience of active players.
- Orchestrated bi-weekly Agile sprints and tracked deliverables utilizing Acuity PPM, reducing feature delivery time and increasing cross-functional team transparency.
- Contributed directly as a software engineer writing high-performance backend features using Kotlin and optimizing the native server infrastructure via the Spigot API.
- Implemented rigorous quality assurance workflows to resolve critical software bugs and optimize native Mojang game code, resulting in significantly increased server performance and stability.

Spectroscopic Analyst
SolarSpec - University of British Columbia Okanagan

May 2021 — Dec. 2022

Kelowna, BC

- Condensed and analyzed advanced spectroscopic data by engineering automated MATLAB scripts and custom GUIs for rapid scientific data post-processing.
- Instituted scalable version control and documentation practices by managing the research group's central GitHub repositories, vastly improving inter-disciplinary code sharing.

Courses & Training

- IAP Career College** – Project Manager Certificate Course (PMCC)
- MEWP Certification** – Boom & Scissor Lift Operations

2024

2024

Education

Bachelor of Science in Physics, Minor in Computer Science
University of British Columbia Okanagan

2018 — 2022

Kelowna, BC

- Presentations:** Selected as an Undergraduate Speaker for the Okanagan Biophysics Conference (OKBC) - 2022.
- Awards:** Recipient of the Deputy Vice-Chancellor Scholarship for Continuing Students - 2018.

Ontario Secondary School Diploma
North Park Collegiate and Vocational School

2013 — 2017

Brantford, ON

- Honours:** Consistently maintained Honour Roll status across all academic years.
